

# Love Our Schools

## Every School Partnership

### The Vision

All 64 schools in Modesto would have at least one organization (church, business, service club, neighborhood, etc.) partnering with them.

### The Goal

Every school, principal, teacher and student will be loved and supported so that ... assessment scores and graduation rates will increase, families will get more involved and the morale at every school would excel!

### The Strategy

- 1) We're working with and under the leadership of the school district and campus principals. Principals need to contact us with their desire to participate and are free to contact any organizations they know.
- 2) We'll be inspiring organizations near their local school or a school in need to partner with one or more schools. We will aide in being the bridge to connect the schools and organizations.
- 3) The interested organization meets with the principal to hear the needs of their school and ways that these needs might be met.  
Some ideas might include:
  - Mentors, classroom helpers, recess help or office help volunteering one hour a week
  - Coaching sports, helping in an after school or summer program
  - Campus beautification, painting a mural, collection for teacher supplies or other needed items, provide an appreciation lunch for staff, provide math tutoring, assisting the PTA, etc.
